TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript(basic), HTML/CSS.
- **Web Development:**
React.js (Hooks, Redux/Zustand),
Next.js(basic), Tailwind CSS, Node.js.
- **Database:** MongoDB, SQL.
- **Tools:** Git/GitHub, Docker, Postman, Vercel/Render.

LANGUAGES

- *English (IELTS: 5.5)*
- *Korean (Basic)*

CAREER OBJECTIVES

An IT Graduate with a solid foundation in HTML, CSS, and JavaScript. I have basic knowledge of the MERN stack (React, Node.js, MongoDB) and experience in building simple responsive interfaces with Tailwind CSS. Currently seeking a Full-stack Internship to learn from a professional environment and improve my technical skills.

EDUCATION

- **Bachelor of Engineering** Sep 2023 - Aug 2025
Tongmyong University (Korea)
Department: Information System and Security
GPA: 3.2/4.0
- **Information Technology** Sep 2019 - Jun 2021
HCMC University of Technology and Engineering
GPA: 3.2 / 4.0

PROJECTS

- **LUNA CINEMA | Full-stack Movie Booking Platform** Mar – Apr 2026
 - Description: A comprehensive movie ticket booking system featuring a modern, high-end cinema interface with a signature gold and dark aesthetic.
 - Tech Stack: React.js, Redux Toolkit, Tailwind CSS, Node.js, Express, MongoDB, Ant Design.
 - User Authentication: Integrated JWT-based secure login and registration to manage user sessions and booking history.
 - Dynamic Data Fetching: Seamlessly fetched and rendered movie catalogs, trailers, and detailed showtimes from a RESTful API.
 - Real-time Seat Selection: Developed complex logic for interactive seat maps, enabling users to select seats, update prices, and manage booking states in real-time.
 - Responsive UI: Leveraged Tailwind CSS to build a mobile-first, professional interface that works flawlessly across all screen sizes.
 - Admin Management: Built a dedicated dashboard to handle CRUD operations for movie listings and user account management.

 - Link Demo: <https://movie-ticket-booking-react-capstone.vercel.app>
- **LUNA STORE | Mobile E-commerce Frontend** Dec 2025 – Jan 2026
 - Description: A mobile-first e-commerce interface designed for smartphone retail.
 - Tech Stack: JavaScript (ES6+), Tailwind CSS, MockAPI.
 - UI Implementation: Built a responsive and modern web interface using Tailwind CSS.
 - Data Integration: Fetched and displayed dynamic smartphone data from MockAPI.
 - Features: Developed search, product filtering, and shopping cart functionality.
 - Deployment: Managed source code on GitHub and deployed the project via Vercel.
 - Link Demo: <https://luna-store-mobile-capstone.vercel.app>
 - Link Git: <https://github.com/nhnhien01/LunaStoreMobile-Capstone>

WORK EXPERIENCE

- **CYBERSOFT ACADEMY |Frontend Developer Intern** Dec 2025 – Apr 2026
 - Core Responsibilities: Participated in an intensive training program focused on modern web technologies, specifically the MERN stack (MongoDB, Express.js, React, Node.js).
 - Project Execution: Successfully developed and deployed high-quality web applications including "Luna Cinema" and "Luna Store," ensuring responsive design and cross-browser compatibility.
 - Technical Implementation: Utilized React.js and Redux Toolkit for complex state management; styled professional UI/UX using Tailwind CSS and Ant Design.
 - Backend Integration: Collaborated on building and connecting RESTful APIs with Node.js and MongoDB to handle user authentication (JWT) and data persistence.
 - Version Control: Managed source code using Git/GitHub, following professional workflow standards for deployment on Vercel.
